PROFESSIONAL SUMMARY

Software Engineering undergraduate at Universiti Malaysia Sabah (CGPA 3.58, Dean's List) seeking an internship in software engineering, web and app development or software testing. Builds full-stack web applications with Laravel, PHP, MySQL and JavaScript, with working knowledge of React and TypeScript. Skilled in the Software Development Life Cycle (SDLC), functional, system and automated testing, and database design.

EDUCATION

Bachelor of Computer Science (Hons.) in Software Engineering
Universiti Malaysia Sabah (UMS) | 2023 – 2027 (expected) | CGPA: 3.58 | Dean's List | BKNS Scholar

Matriculation Programme, Module III – Science Technology
Labuan Matriculation College | 2022 – 2023 | CGPA: 3.21 | MUET Band 4.0

TECHNICAL SKILLS

- **Programming Languages:** PHP, Java, JavaScript, TypeScript, HTML, CSS, C++
- **Frameworks & Tools:** Laravel, React, Vite, Git, GitHub, GitHub Actions, Visual Studio Code, XAMPP, Android Studio, Arduino IDE
- **Databases:** MySQL, database design, CRUD operations
- **Software Testing & QA:** Functional, system, integration, unit and automated testing (Vitest, Playwright), UAT, usability evaluation (SUS)
- **Software Engineering:** SDLC, Waterfall, requirements analysis, documentation
- **AI, Low-Code & Design:** Claude, Gemini AI, Google AI Studio, Google AppSheet, Lovable, Figma, Canva, Google Stitch

PROJECTS

Web-Based Church Management System, Archdiocese of Kota Kinabalu (Final Year Project) | 2026
Laravel, PHP, MySQL, HTML, CSS, JavaScript

- Developing a web-based system to centralise church information, digital bulletins, AI-generated announcements, sacramental services, donation management, catechesis and an AI chatbot for all 23 churches in Kota Kinabalu.
- Implementing role-based access control, administrative workflows and MySQL database design.
- Applying the Waterfall methodology across requirements, design, development and testing.
- Conducting User Acceptance Testing (UAT) and usability evaluation to validate system functionality and user requirements.

SchoolFam: Parent-Teacher Communication App | 2025
Google AI Studio

- Collaborated on an application to improve information sharing between parents and teachers.
- Won Overall Best Project and First Runner-Up in the Technopreneurship Business Idea Pitching Competition.

Smart Street Light System | 2025
ESP32, Arduino IDE, C++, PIR Sensor, LDR Sensor, Telegram Bot API

- Developed a solar-powered smart streetlight with automated motion and light detection.
- Integrated ESP32-CAM surveillance and Telegram alerts for remote monitoring.
- Performed unit, integration and field testing, achieving an estimated 80% energy reduction.

WORK EXPERIENCE

Part-Time Florist Assistant | Garden Florist, Buhavan Square, Penampang | 2025

- Advised customers on flower selection, arrangements and purchases.
- Prepared and wrapped bouquets to customer specifications with attention to detail.
- Maintained product displays and supported daily shop operations.

Part-Time Shop Assistant | Petronas Station, Sipitang | 2023

- Handled cashier duties and processed payment transactions accurately.
- Served customers and resolved enquiries in a fast-paced environment.
- Replenished stock and maintained product displays and shop cleanliness.

CERTIFICATIONS & TRAINING

- **PETRONAS BeDigital Bootcamp** (2025): two-day programme on digital innovation, technology applications and digital transformation.
- **MITE Generative AI Tools Training for the Workplace**, sponsored by Yayasan Peneraju (2026): two-day training on generative AI for workplace productivity and workflow optimisation.
- **Social Engineering & Phishing in The Age of AI** (2025): training on recognising and preventing AI-driven social engineering and phishing attacks.

LEADERSHIP & ACTIVITIES

- Treasurer, **Program Kembara Jati Diri UMS** (2024)
- Participant, **AI in Action: Productivity Challenge Competition** (2026)
- Volunteer Developer, **SULAM Project, Masjid Al-Huda**, Kg. Unggun Jaya (2026): developed a mosque management system for the community.
- Participant, **Gemini No-Code Hackathon** (2026): built a no-code prototype with Google AppSheet and Gemini AI to address real-world challenges.
- Participant, **Malaysia Testing Cup** (2026): software testing competition.

HONOURS & ACHIEVEMENTS

- **Overall Best Project**, SchoolFam (2025)
- **First Runner-Up**, Technopreneurship Business Idea Pitching Competition (2025)
- **Dean's List**, Universiti Malaysia Sabah (2024 – 2026)
- **BKNS Scholar**
